1. The following is an examiner's statement of reasons for allowance: The prior art does not teach the method or apparatus of injection molding on one side of a preformed material wherein an undercut recess is located on the surface of one of the mold parts and the preformed material is trimmed upon closure of the mold parts with the engaging of the cutting edges.
2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Both Hirmer et al. and Swenson et al. show mold surfaces which can be considered undercuts but the closure of the mold does not trim the preformed material with the cutting edges of the mold.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
